

**ARMORY**

Bul Armory have been manufacturing and developing firearms since 1990. Our mission statement is to deliver the most reliable, accurate and innovative guns that you can run straight out of the box. Our line of firearms includes self defense EDC pistols for civilians, duty ready platforms for law enforcement and military personal and competition ready firearms for sport shooting. Built by our master gunsmiths with superlative parts and hand fitted to the highest degree, there is a Bul gun for every task in sight.

## SAS II BULLESTEROS

After a year long of development with inputs from world champion Jorge Ballesteros, we came up with a new breed of an open gun, the Bullesteros.

The development started with a new stainless steel grip to add weight to the gun and keep recoil down to a minimum. The trigger guard is ergonomically cut to allow for the highest grip possible.

We then fit it with a unique one piece compensated 5.7" hybrid barrel for a fast and flat shooting experience. To top it all off, the Bullesteros ships with a modular trigger system that has interchangeable trigger shoe inserts, a tool less guide rod, CNC machined & spring loaded competition extractor, shielded ambidextrous safeties and is hand built with the highest attention to detail.

JORGE  
BALLESTEROS

- Calibers: 9mm / 9X21 / .38 super .
  - Barrel: Match grade one-piece 5.7" inch hybrid compensated ramped bull barrel.
  - Finish: Stainless steel / black stainless steel.
  - Frame: Full length dust cover.
  - Slide: Lightened ported slide.
  - Trigger: up to 2.0 lbs.
  - Safety: Ambidextrous shielded extended levers.
  - Sights: Nikko Stirling 6 MOA red dot sight.
- (Mount is compatible with C-More RTS2 & Vortex Razor)

- Integrated thumb rest on the mount.
- Large adjustable magazine release.
- Magazines: 2, 170mm.
- Magwell: Enlarged.
- Tool less guide rod.
- Slide racker.
- Weight: 1540 g approx.

## SAS II UR SHORTY

The "Ultimate Racer" (UR) was designed and built for cutting edge competitive performance. The UR pistol incorporates state of the art gunsmithing and manufacturing processes to provide superior speed and accuracy. It's meticulously hand fitted and tuned, then thoroughly tested to ensure that everything is perfect. The UR is ready to race out of the box, just load the magazines and you are ready to go. (Mount is compatible with C-More RTS2 & Vortex Razor)
- Integrated thumb rest on the mount.
- Large adjustable magazine release.
- Full length stainless steel guide rod.
- Slide racker.
- Magwell: Enlarged.
- Magazines: 2, 170mm.
- Weight: As shown (unloaded): 1197 g

## SAS II RADICAL 5.4"

The Radical 5.4" is the evolution of our SAS2 family, equipped with a sight block that is made with the barrel as one piece, providing the shooter the longest sight radius possible while adding weight up front for perfect balance and quick sight return. Featuring our famous "Saw" serrations for quick slide manipulation, a crisp light trigger and a brass magwell, The radical comes loaded with all you need to get that extra edge of performance over the competition.

- Calibers: 9mm / .40 S&W / 9X21
- Barrel: RADICAL Match grade 5.4" inch ramped bull barrel.
- Frame: Full dust cover / (picatinny rail option available).
- Finish: Stainless steel.
- Magazines: 3, 120 mm
- Capacity: 9mm - 19 rounds / .40S&W - 17 rounds
- Trigger: 2.0 - 2.5 lbs.
- Safety: Ambidextrous, extended and shielded levers.
- Sights: Adjustable rear & fiber optic front. (Sight Block mounted)
- Magwell: Extended brass magwell.
- Weight: as shown (unloaded): 1170 g

## SAS II RADICAL 5.7"

The Radical 5.7" is the evolution of our SAS2 family, equipped with a sight block that is made with the barrel as one piece, providing the shooter the longest sight radius possible while adding weight up front for perfect balance and quick sight return. Featuring our famous "Saw" serrations for quick slide manipulation, a crisp light trigger and a brass magwell, The radical comes loaded with all you need to get that extra edge of performance over the competition.

- Calibers: 9mm / .40 S&W / 9X21
- Barrel: RADICAL Match grade 5.7" inch ramped bull barrel.
- Frame: Full dust cover / (picatinny rail option available).
- Finish: Stainless steel.
- Magazines: 3, 120 mm
- Capacity: 9mm - 19 rounds / .40S&W - 17 rounds
- Trigger: 2.0 - 2.5 lbs.
- Safety: Ambidextrous, extended and shielded levers.
- Sights: Adjustable rear & fiber optic front. (Sight Block mounted)
- Magwell: Extended brass magwell.
- Weight: as shown (unloaded): 1185 g

## SAS II SL AIR

Each pistol in the SL line is hand built and fitted by our master gunsmiths with the highest attention to detail. Featuring a full length dust cover for the optimal balance between weight and stability, the SL is true to our mantra "ready to race out of the box". With a crisp light trigger, match grade bull barrel and extended controls giving you the ultimate tool to dominate in the IPSC standard / USPSA limited divisions. The SAS II AIR pistol comes with all the features of our SL line with the addition of a lightened slide and Titanium Nitride coated barrel. The lightened slide makes for a faster cycling rate, enabling faster follow up shots and better recoil management.

- Calibers: 9mm / .40 S&W / 9X21
- Barrel: Match grade 5.0" inch ramped bull barrel.
- Frame: Full dust cover. (picatinny rail option available)
- Finish: Stainless steel / Black stainless steel.
- Magazines: 3, 120mm
- Capacity: 9mm - 19 rounds / .40S&W - 17 rounds
- Trigger: 2.0-2.5 lbs.
- Safety: Ambidextrous and extended levers.
- Magazine release: Enlarged with adjustable button.
- Sights: Adjustable rear & fiber optic front.
- Magwell: Extended.
- Weight: As shown (unloaded) : 1071 g

## SAS II SL SAW

Each pistol in the SL line is hand built and fitted by our master gunsmiths with the highest attention to detail. Featuring a full length dust cover for the optimal balance between weight and stability, the SL is true to our mantra “ready to race out of the box”.

With a crisp light trigger, match grade bull barrel and extended controls giving you the ultimate tool to dominate in the IPSC standard / USPSA limited divisions.

The SAW version of the SL features aggressive slide serrations cuts for better slide manipulation and handling.

- Calibers: 9mm / .40 S&W / 9X21
- Barrel: Match grade 5.0” inch ramped bull barrel.
- Frame: Full dust cover. (picatinny rail option available)
- Finish: Stainless steel / Black stainless steel.
- Magazines: 3, 120mm
- Capacity: 9mm - 19 rounds / .40S&W - 17 rounds
- Trigger: 2.0-2.5 lbs.
- Safety: Ambidextrous and extended levers.
- Magazine release: Enlarged with adjustable button.
- Sights: Adjustable rear & fiber optic front.
- Magwell: Extended.
- Weight: As shown (unloaded) : 1085 g

## SAS II SL STANDARD/LIMITED

Each pistol in the SL line is hand built and fitted by our master gunsmiths with the highest attention to detail. Featuring a full length dust cover for the optimal balance between weight and stability, the SL is true to our mantra “ready to race out of the box”.

With a crisp light trigger, match grade bull barrel and extended controls giving you the ultimate tool to dominate in the IPSC standard / USPSA limited divisions.

- Calibers: 9mm / .40 S&W / 9X21
- Barrel: Match grade 5.0” inch ramped bull barrel.
- Frame: Full dust cover. (picatinny rail option available)
- Finish: Stainless steel / Black stainless steel.
- Magazines: 3, 120mm
- Capacity: 9mm - 19 rounds / .40S&W - 17 rounds

- Magazine release: Enlarged with adjustable button.
- Sights: Adjustable rear & fiber optic front.
- Magwell: Extended.
- Weight: As shown (unloaded) : 1096 g

# R PACKAGE

## R PACKAGE

The R package is the accumulation of our top of the line parts. Featuring a stainless steel grip (SAS2 only) modular trigger kit, spring loaded CNC machined extractor, a tool less guide rod and a plethora of our Power parts. The R package is for those who want to take their Bul to the next level.

Our R package is an upgrade option we offer to our SAS2 lineup. It includes:

- Stainless steel grip.
- Brass magwell.
- Modular trigger kit with 3 inserts.
- Tool less guide rod.
- CNC machined spring loaded competition extractor. (patent pending)
- Power hammer.
- Power disconnecter.
- Power sear.

## BL9 PCC

After years of development, prototypes and tuning, our entry to the Pistol Caliber Carbine category is finally here. We took our vision of “ready to race out of the box” to the BL-9 PCC by fitting it with every bit of upgrades needed for competition use.

- Caliber: 9x19
- Overall weight (without mag) : 2,917gr (14.5”) 3,000gr (16”)
- Overall length (open/close buttstock): 88 cm/79cm.
- Barrel length: 14.5” (36.8 cm) / 16” (40.6 cm)
- Lightweight ramped stainless steel 14.5” / 16” barrel with a shock buffer.
- Lightweight aluminum handguard.
- 7075 Aluminum upper and lower.
- Single stage competition trigger. (round or straight trigger shape)
- Trigger pull: 2.5 lb approx.
- Aluminum muzzle brake..
- Flat forward grip.
- Offset 45° optic mount.
- Extended aluminum trigger guard.
- Ambidextrous safety.
- Ambidextrous charging handle.
- Heavy spring and buffer tube.
- Last round bolt hold open catch.
- FAB Defense GL-Core S buttstock and rubberized ergonomic grip (AGR-43).
- Magazine type: Glock Gen 4&5
- Available colors (buttstock tube, handguard and muzzle brake): red, blue, purple and black anodized.

- Calibers: 9mm / 9X21.
- Barrel: 5.0" inch bushing barrel / bull barrel.
- Slide: Cesar slide cuts.
- Finish: Black oxide/ Stainless steel.
- Magazines: 3
- Capacity: 9mm - 10 rounds
- Trigger: up to 2.5 lbs.
- Safety: Ambidextrous, extended and shielded levers.
- Sights: Adjustable rear, fiber optic front.
- Magazine release: enlarged and adjustable button
- Weight: 9mm bull barrel (unloaded): 1080 g

## SAS II UL [ULTRA LIGHT]

The Ultra Light is the lightest SAS II in our lineup.

Built with a 15 round compact grip, a fluted match grade barrel, lightweight aluminum frame and front slide serrations you get the best of all worlds, without compromising on anything.

- Calibers: 9mm / 45 ACP.
- Barrel: 3.25" inch fluted barrel.  
(Single port compensated barrel available as an upgrade).
- Frame: Aluminum full length with picatinny rail.
- Finish: Two tone / Black oxide / Stainless finish  
/optional PVD coated slide.
- Magazines: 2- 15 rounds magazines.
- Trigger: 3.0 - 3.5 lbs.
- Safety: Extended lever.
- Sights: Adjustable rear & fibre optic front.  
(Shield RMS-C optic available as an upgrade).
- Weight: As shown (unloaded): 615 g / 1.37 lbs approx.

## SAS II UL VIPER

The VIPER is our vision of the perfect carry gun. A lightweight and easily concealable package that you can carry all day, everyday. Built with a fluted single port compensated match grade barrel, lightweight aluminum frame, a full size grip and equipped with red dot sight, you get the best of all worlds, without compromising on anything.

- Calibers: 9mm / 45 ACP.
- Barrel: 3.25" inch fluted ramped bull barrel with a one port compensator.
- Frame: Aluminum full length with picatinny rail.
- Finish: Two tone / Black oxide / Stainless finish / optional PVD coated slide.
- Magazines: 2, 120mm.
- Capacity: 9mm - 19 rounds / .45ACP - 14 rounds (optional 15 round grip)
- Trigger: 3.0 - 3.5 lbs.
- Safety: extended lever.
- Sights: Shield RMS-c red dot sight & fibre optic front sight.
- Weight: As shown (unloaded): 646 g

## SAS II ULTRA FS

The Ultra FS is built using the SAS II full size grip and coupled with a 3.25" slide to make a compact and easily concealable package that you can carry all day, everyday.

- Calibers: 9mm / 45 ACP.
- Barrel: 3.25" inch ramped, bull barrel.
- Frame: Aluminum full length with picatinny rail.  
(optional 9mm 15 round grip)
- Finish: Two tone / Black oxide / Stainless finish  
/optional PVD coated slide.
- Magazines: 2, 120 mm.
- Capacity: 9mm - 19 rounds / .45ACP - 14 rounds
- Trigger: 3 - 3.5 lbs.
- Safety: Extended lever.
- Sights: Adjustable rear, white dot front.
- Weight: As shown (unloaded): 679 g / 1.49 lbs approx.

## SAS II TAC GOVERNMENT/COMMANDER

Stripping down the SAS II competitive pistols to their bare essentials has created a noteworthy duty & self defense platform, the TAC Line.

With a high capacity magazine, smooth crisp trigger, picatinny rail and the same attention to detail and quality as our competition pistols, make the SAS II TAC the perfect carry companion.

\*Commander model is featured

- Calibers: 9mm / 9X21 / .45 ACP.
- Barrel: bull barrel / bushing barrel.  
(no bushing option for the 4.25" model)
- Slide: 5" Government or 4.25" Commander
- Frame: Stainless steel with picatinny rail.
- Finish: Stainless steel / Black oxide  
/Optional PVD coated slide & frame.
- Magazines: 2, 120 mm.
- Capacity: 9mm - 19 rounds / .45ACP - 14 rounds
- Trigger: 3.0 - 3.5 lbs.
- Safety: extended lever.
- Sights: 3 dot.
- Weight: As shown (unloaded): 940 g
